

ASMA FOUNTATION

Raghonagar, Bhowara, Madhubani, Bihar, India - 847212
Established in 2003

ASMA FOUNDATION has been tirelessly working since 2003 in rural areas of Bihar state of India with a focus on education for the poor, skill development, Social Welfare and disaster relief. The organization played a crucial role in addressing various social and economic challenges:

EDUCATION FOR THE POOR:

Established *Kulliya Mariyam Lil-Banat* and supporting schools in rural areas to provide quality education to children from underprivileged backgrounds. The organisaiton has been providing scholarships to poor but meritorious student, textbooks, and school supplies to disadvantaged students. Conduct adult literacy programs to empower illiterate adults with basic education. Asma Foundation Organizes awareness campaigns to promote the importance of education in the community.

SKILL DEVELOPMENT:

Offer vocational training programs such as computer learning programs, home science, cookery, plumbing, electrician training etc to help individuals acquire practical skills for employment.

Collaborate with local businesses and industries to create job opportunities for the trained individuals. Facilitate entrepreneurship training and support for those interested in starting their own businesses.

Develop partnerships with government agencies and private sector organizations to enhance skill development initiatives.

FREE COMPUTER TRAINING CENTRE

Asma Foundation has been Offering vocational training programs such as computer learning programs, home science, tailoring, cookery, plumbing, and electrician training etc to help individuals acquire practical skills for employment.

DISASTER RELIEF:

Establish a disaster response team that can quickly respond to natural disasters such as floods, earthquakes, hurricanes, and droughts. Stockpile essential relief supplies like food, clean water, clothing, and medical supplies. Conduct disaster preparedness and awareness programs within the community. Collaborate with other relief organizations and government agencies to coordinate relief efforts effectively.

India is prone to a wide range of disasters, including earthquakes, floods, cyclones, droughts, and more. Al-Rahmah Healthcare & Research Center often ensures effective relief and recovery efforts. The organizations swiftly mobilize resources to provide immediate assistance. This includes distributing food, clean water, clothing, medical supplies, and temporary shelter to affected individuals and families.

KEY PRINCIPLES AND STRATEGIES:

Community Involvement: Involve the local community in all projects and decisions, as their input is essential for the sustainability and success of initiatives. **Capacity Building:** Build the capacity of local individuals and organizations to ensure long-term self-sufficiency and sustainability. **Advocacy:** Advocate for policies and resources that support education, skill development, and disaster relief in rural areas. **Monitoring and Evaluation:** Regularly assess the impact of programs to make data-driven improvements. **Networking:** Collaborate with other organizations to leverage resources and expertise.
